

Resolution Urging President Trump and Governor Mills to Forthwith Open Up the Maine Economy

We the assembled Members of the Androscoggin County Board of Commissioners hereby recommend that:

1. The availability of testing continues to be expanded.
2. Protection of the elderly be continued and practices such as delivering meals to seniors be continued and expanded until the danger passes.
3. The force of law be removed from shutdown and lock down orders and instead have those practices immediately become voluntary, neither forcing any businesses, churches and religious organizations or other groups to remain closed nor requiring any to be open, in order to protect First Amendment rights.

We additionally hereby proclaim an economic emergency for the County and the State of Maine and declare the need to fully open back up the State of Maine forthwith for business and assembly; and We beseech President Trump and Governor Mills to take immediate action to do so.
